"The price of success is hard work, dedication to the job at hand, and the determination that whether we win or lose, we have applied the best of ourselves to the task at hand."

~ Vince Lombardi

## What is **TED**?

TED is a nonprofit organization devoted to “Ideas Worth Spreading”. It started out (in 1984) as a conference bringing together people from three worlds: Technology, Entertainment, and Design, since then its scope has become even broader. TEDx events comprise of TEDTalks videos or a combination of live presenters who spark deep conversations and connections with an audience at a specific venue and region around the globe. The intention is for TEDx organizers to select or invite people with certain ideas, projects or successes they believe are worth spreading to the world.

## What is **TED<sup>x</sup>**?

TEDx events are fully planned and coordinated independently and on a community-by-community basis. Each speaker gets a total of 18 minutes using visual aids if needed, to present their topic or idea, and thereafter the speech is posted on the local TEDx organized event website where people across the globe can tune in for free to listen, comment, be inspired, or challenged by ideas.

### What you'll find at our **TED<sup>x</sup>** event:

- The content and design of each TEDx event is unique and developed independently, but all TEDx events have several features in common
- A collection of short & carefully prepared talks, demonstrations and performances (Live or TEDTalks from TED.com)
- A wide range of subjects to foster learning, inspiration and wonder
- A minimum of two pre-recorded talks from the acclaimed TEDTalks video series
- Bias-Free programming: no commercial, religious or political agenda
