Paper ID: EC146

Paper Title: A study based on Successive Approximation ADC A review on design advancements in techniques of SAR ADC

Technical Review Status: Accept after minor revision

We are pleased to inform you that, based on the review feedback, your paper has been **ACCEPTED** for 2021 ICCCI by the technical program committee for the oral presentation and publication in the proceedings. You are cordially invited to present your research work at ICCCI 2021 to be held at Sri Shakthi Institute of Engineering and Technology, Coimbatore during 27-29, January 2021.

Please note that only presented papers either in person (or) through the video conferencing will be submitted for inclusion in the IEEE Xplore Digital Library. Also, you will get a participation certificate, only if you present the paper. For other state and foreign authors, we allow them to present via video conferencing (Skype) with prior permission from the Conference Chair.

The registration process starts from 25th December 2020.

Guidelines for submission

1. Prepare the final CRC paper with reviewer comments, if any, in IEEE Conference Paper Format (Link: <http://iccci.in/download>)
You must include the header (in all pages) as
2020 International Conference on Computer Communication and Informatics (ICCCI -2021), Jan. 27 – 29, 2021, Coimbatore, INDIA
2. Submit the final CRC (camera ready copy) in both .doc and .pdf format.

Attachments to be submitted

- Final CRC (.doc format) of your paper
- Final CRC – IEEE Xplore compliant .pdf file (generated with IEEE PDFeXpress)
- Signed copyright form (scanned .jpeg/.pdf) ([IEEE Copyright Form](#))
- Signed declaration of originality form (scanned .jpeg/.pdf) ([DoO Form](#))
- Scanned image of IEEE Membership card (jpg/pdf/png)

Kindly prepare the above documents and register after 25th November 2020

Reviewer Comments

1. Figure 7 has to be redrawn, at the MSB FF, it is hard to find where the output from. (Direct output or complement output being taken)

2. Few recent references should be added as important parts of the argument were poorly supported. This may be an indicator that referencing should be improved
3. The whole paper needs a quick copy edit. There are a few typos and wrong verb tenses.
4. Are there published studies that show similar or dissimilar trends that should be discussed? If so, the authors are advised to check with such studies and draw a useful comparison.
5. References should be relevant, recent and readily retrievable.
